

Press Release

For Immediate Release:

Natural Stone Award for Old Wardour House

Eric Parry Architects has received a Natural Stone Award from the Stone Federation of Great Britain for the extension to Old Wardour House in Tisbury, Wiltshire. The project was highly commended by the judges who in the category of 'New Build Modern Non Load Bearing Stone'. Eric Parry Architects was singled out for the intelligent and sensitive use of natural stone in the extension.

The Natural Stone Awards took place on 24th November at a prestigious ceremony in London attended by the industry's most prominent figures. The Awards were hosted by the Stone Federation of Great Britain, the Trade Association for the industry.

This week has also seen the opening of Eric Parry Architects' Aldermanbury Square, a new public space designed for the City of London as part of the Street Scene initiative.

Notes to Editors:

Eric Parry Architects is an established and award-winning practice with a growing portfolio of notable work.

Current projects include the nineteen storey office building at 5 Aldermanbury Square in the City of London; the practice is also working on the restoration and redevelopment of the historic St Martin-in-the-Fields Church in Trafalgar Square, due for completion in 2008.

The practice undertakes an unusual range of work, varied in scope and scale. It has won numerous awards, including an RIBA Award 2003 and the AIA Design Excellence Award 2003 for the design of its office building at 30 Finsbury Square, London, the Best Leisure Design at the FX International Interior Design Awards 2001 for the Spa at the Mandarin Oriental, Hyde Park and an RIBA Regional Award 1998 for Foundress Court at Pembroke College, Cambridge University.

Eric Parry founded the practice in 1983. It is based in Finsbury, London, and employs 54 staff. EPA also has an office in Kuala Lumpur, Malaysia, where the practice has designed a number of residential schemes.

Eric Parry has a key involvement in all projects, particularly in their design development stages. He is keenly interested in the bridges between theory, practice, space and society.
